**GET A JUMP ON THE ACTION WITH THESE 99 NEW FRANCHISES.**

If you're interested in buying a franchise but yawn at the idea of being the 10,000th in line to operate a franchise that's been around for decades, you'll be glad to know that franchising isn't as old-school as you might think. The more you research franchising, the more you'll find you can tap into innovative, new concepts—maybe even ideas you've never heard of before—while still benefiting from all the systems, training and support franchising has traditionally offered.

**ONLINE EXCLUSIVE:** For a complete list of new franchises, plus articles on how to research a new franchise company, visit [Entrepreneur.com's FranchiseZone](http://Entrepreneur.com's FranchiseZone) at [www.entrepreneur.com/franchises/new](http://www.entrepreneur.com/franchises/new).

How do you find these hidden gems in time to get in on the ground floor? The following listing, which provides information on companies that have started franchising since 2005, is a good place to start.

This is *not* a ranking and is not intended to endorse any specific franchise. Rather, it's a first step in your own research, which should include reading the franchise company's literature (including its Uniform Franchise Offering Circular), calling and visiting existing franchisees, and consulting with an attorney and an accountant.
